1 Month Project

July 2026

All-Side Roofing

- Built automated data pipelines using Python and Zapier to streamline data collection and reporting.
- Developed Python scripts for web scraping, lead generation, and automated data processing.
- Integrated data from Google LSA, Angi, and JobNimbus CRM into centralized reporting workflows.
- Automated ETL processes, including data extraction, cleansing, transformation, and loading.
- Created automated reporting solutions that improved data accuracy, reduced manual work, and provided actionable business insights.

RF ENGINEER | DATA ANALYST

GLOBE TELECOM/FINSI

Nov 2022 -
Mar 2025

- Managed RF engineering and data analytics for assigned cellular network sites, supporting performance monitoring and optimization initiatives.
- Extracted and processed large-scale datasets for Mindanao-wide cell sites, performing data cleansing and storing structured data in a MySQL data warehouse.
- Developed Python automation scripts to streamline ETL processes, including calculated fields, categorization, data enrichment, and report generation.
- Optimized network KPIs by analyzing performance data and implementing parameter modifications to improve overall network quality.
- Designed and developed interactive dashboards using Power BI, Looker Studio, Python (Streamlit, Plotly, Pandas), with SQL, Excel, Google Sheets, and MySQL as data sources.
- Wrote efficient SQL queries to extract and transform large datasets, significantly reducing processing time and improving reporting performance.
- Delivered actionable insights and strategic recommendations to clients by analyzing KPIs and presenting data-driven performance reports.
- Utilized Python libraries including Pandas, SQLAlchemy, Plotly, Streamlit, and other analytics tools to automate workflows, visualize data, and enhance business reporting

WIRELESS SITE ENGINEER (field works)
COMMSEC INC. / NOVESYS INC.

MAY 2018 -
MAY 2022

- Monitored subcontractor activities and ensured projects stayed on schedule.
- Served as the primary technical adviser for cell site installation and deployment.
- Performed site integration, functionality testing, alarm clearing, power tapping, and site acceptance.
- Ensured all installations complied with project specifications, quality standards, and client requirements.
- Planned site operations, coordinated with clients, and resolved technical issues to meet project deadlines.
